

Why use multiple labels, bands, and seals when one product outperforms them all?

This innovative packaging solution takes the place of multiple labels and shrink banding, combining them into a single, high-performance solution that features proprietary tamper evidence tabs designed to preserve your product's safety.

- Customize your SecuriTag to any size or shape hinged or two part container
- A range of stocks are available to suit your graphics needs
- Direct thermal, thermal transfer, ink jet, and hot stamp your SecuriTag
- SecuriTag body and legs can be created in nearly limitless shapes and sizes and will accommodate your GTIN/UPC data
