

smart-pouch™

by Sev-Rend

BEST POUCH FOR KEEPING LIQUIDS IN OR OUT

leak resistant | odor resistant

Leak Resistant

Water tight press to close and patent pending fold and seal system keeps all liquids in or out

Odor Resistant

Special dual layer film contains the worst odors

Assists in Hazard Containment

CR 173.167(a) * **

Tamper Resistant Security

Keep contents secure with a permanent closure system

I.S.T.A Tested

The unique features of Sev-Rend's Smart Pouch make it far more effective than other secondary packaging materials. When used as a component in an ISTA Certified shipping container, it is more likely to prevent leaks than standard polybags.

Impact Resistant

Dual layer structured film resists impacts and punctures

Triple Closure

Redundancy System

Patent pending "press to close tape seals and folds" assures no false closes

Easy Open Tear Notch

Single Use Safety - Reduces liability of end user reuse

4 Standard sizes available

AVAILABLE SIZING

* CR 173.167(a) (2) Closures. Friction-type closures must be secured by positive means. The body and closure of any packaging must be constructed so as to be able to adequately resist the effects of temperature and vibration occurring in conditions normally incident to air transportation. The closure device must be so designed that it is unlikely that it can be incorrectly or incompletely closed.

** CR 173.167(a) (4) Drop test capability. Breakable inner packagings (e.g., glass, earthenware, or brittle plastic) must be packaged to prevent failure under conditions normally incident to transport. Packages of consumer commodities as prepared for transport must be capable of withstanding a 1.2 m drop on solid concrete in the position most likely to cause damage. In order to pass the test, the outer packaging must not exhibit any damage liable to affect safety during transport and there must be no leakage from the inner packaging(s).

* Sev-Rend Products are manufactured in accordance with good manufacturing practices utilizing strict quality processes to ensure conformity to established specifications. All food contact products are manufactured with Heavy Metals Free and FDA compliant materials.

smart-packaging™

TECHNOLOGY

leak resistant | odor resistant

A packaging solution for the ever growing Online Ordering Market. Not only is the Smart-Packaging Technology line odor & leak resistant, but it also offers tamper & impact resistant. There are several options available with custom printing & sizing for your branding & production needs.

smart-pouch™

by Sev-Rend

The Smart-Pouch™ product line is a pre-made pouches that is ideal for shipping from the store level that would utilize a manual hand packing for the product.

- Perfect for shipping Liquids and Moisture Sensitive items. (Patented Triple Seal)
- Assists In Hazardous Materials Containment
- Tamper Resistant -Easy Open Tear Notch - Single Use Product.
